Historic Row House Renovation

A stunning four-story renovation of a Capitol Hill row house including a gourmet kitchen, three full bathrooms, master bedroom, small deck, powder room and basement apartment. Visit the Whole House category in our online Portfolio to read more about the project.

Virtual Design vs. Reality: Before & After

We created a virtual reality design for this dramatic roof deck, and a matching 360 photo after the project was completed. Request the links so you can see for yourself:
