Cozy Spaces

The Fall may have you thinking about cozy spaces in your home to sit with a cup of coffee or a glass of wine on chilly days. Here are two spaces that make us think of home-cooked meals and relaxation. The kitchen is part of a rear addition to a home in Northwest DC that highlights wooded views of the backyard. The kitchen is open to the living room and windowed breakfast nook. If you don't have a cozy space in your home to enjoy, give us a call! 202-726-3777

For this master bath renovation, we installed a sleek stand alone tub in place of a center tub set in a tiled platform. This made space for a new shower. The fireplace was original to the Capitol Hill house, but we modernized it by removing the surrounding tile.

Project in Progress

These are photo-realistic renderings of a kitchen, exercise room, and roof deck renovation of a two-story condo in the Logan neighborhood. We expanded the exercise room by building a floor in an open atrium over the kitchen and renovated the kitchen. New large sliding doors bring in more natural light and provide better access to the roof deck. Visit bit.ly/2I5aGkQ to view a virtual reality design of the exercise room. Visit bit.ly/2yERnnt to view the kitchen.

A Wider Circle's Community Ball

Ethan Landis and Paul Gaiser were excited to attend A Wider Circle's 2017 Community Ball and congratulate honoree Maryland Senator Chris Van Hollen on his Commitment to Change Award. It was a reunion for Paul, our Director of Architecture, who designed the renovation to the senator's house many years ago!

We recommend the charity for furniture or monetary donations. www.awidercircle.org

Selecting Paint Colors

Tips on selecting paint colors for your home from our Finish Specialist, interior designer David Richardson. (Bonus: shades of blue/teal used by clients in recent projects!) Visit www.landisconstruction.com/blog/

Design Award

We won a Silver Award from Professional Remodeler magazine for our whole-house renovation of this Capitol Hill rowhouse. Visit the Portfolio section on our website and click on Whole House projects.
