

Contemporary Master Bath

We recently completed this contemporary master bath in a two-level condominium in the Logan neighborhood of D.C. The clients enjoy the large rain showerhead and say it feels like standing under a waterfall. The integral sinks set in the solid surface counter is a design we've never done before. Our team worked with the clients and fabricator to create the sleek look. Visit our website portfolio to view a video and see before and after photos.

Whole House Renovation and Three-Story Addition: In Progress

We are four months into the construction of a whole-house renovation and addition in Chevy Chase. The house is in a great location and has great bones, but the outdated finishes and small rooms did not work for the family that recently purchased it. We are replacing all of the windows, enlarging the garage, building a three-story addition, and finishing the basement. The kitchen and four bathrooms will have all new finishes. Visit our website blog section to follow the progress.

BEFORE: The house has great bones, but the owners needed a renovation and expansion to better suit their family.

IN PROGRESS: 1st and 2nd floor framing over the widened garage.

Design Board

BEFORE

On our design board - a rear addition to a stately stone Tudor. The project includes a great room, updated kitchen, and a master suite. Request a link to the 3D design: nina@landisconstruction.com

Customer Service Award

We earned the 2017 GuildMaster Award for service excellence. Awarded by GuildQuality, a third-party customer review company, it recognizes companies that deliver a consistently superior customer experience in the building, remodeling and contracting professions. GuildQuality surveys our clients after the design phase and again after project completion. The surveys provide valuable information that helps us constantly improve our clients' renovation experience.

Project Manager Allen Apple Retires

Happy retirement, Allen Apple! Thank you for your seven years of service. Best of luck on your retirement project - building your own house. We can't wait to visit and see your lake view.

Hot Fudge Dispenser

Gotcha! We had to share this great April Fool's joke from clients. They e-mailed our designer asking for a hot fudge dispenser in their kitchen. They requested a spout that would make it easy to add hot fudge to sundaes, waffles, and breakfast cereal. They said they would even foresee swapping out the hot fudge machine for the dishwasher, as hand washing dishes was the price they would be willing to pay for hot fudge on demand!
